Racist behaviour during matches

- (i) The Match Officials and the Venue Director, where applicable, together with the officer in charge of police at the venue, must prevent any racist or other discriminatory action being taken by spectators inside or in the immediate vicinity of the stadium (unacceptable levels of verbal provocation from spectators towards players or opposing fans, racist behaviour, provocative banners or flags, etc.).

Should such action arise, the Venue Director, once informed, must intervene over the public address system or have any offensive material removed.

Match personnel must draw the attention of the police to any serious acts of misconduct, including racist insults, so that offenders may be removed from the stadium should the police so decide.

- (ii) (a) When the referee becomes aware (in particular if he is informed by the Venue Director or by the Referee Observer through the fourth official) of racist behaviour (especially racist chants, insults and screams, banners, etc.) and if, in his opinion, this racist behaviour is of a strong magnitude and intensity, he shall, in application of Law 5 of the Game, stop the match and ask for an announcement to be made over the public address system requesting the public to immediately stop such racist behaviour. In the absence of a public address system, the referee shall inform the respective club officials listed on the match sheet who shall be responsible for communicating with their respective supporters.

The match may resume only after the announcement has been made or after such communication.

- (b) If the racist behaviour does not cease once the game has restarted (i.e., step 1 was ineffective), the referee shall suspend the match for a reasonable time period (for example 5 to 10 minutes) and request the teams to go to the dressing rooms. The Venue Director, the Referee Observer, and the fourth official, where and as applicable, shall assist the referee in determining whether the racist behaviour has ceased following step 1.

During this time period, the referee shall again ask for an announcement to be made over the public address system requesting the public to immediately stop such racist behaviour and warning them that this may even result in the match being abandoned. In the absence of a public address system, the referee shall inform the respective club officials listed on the match sheet who shall be responsible for communicating with their respective supporters.

During this suspension, the referee shall consult with the Venue Director, the Referee Observer, and the officer in charge of police at the venue, where and as applicable, on the possible next steps, in particular the possibility to abandon the match.

- (c) If the racist behaviour does not cease after the game has restarted (i.e. step 2 was ineffective), the referee shall, as a very last resort, definitively abandon the match. The Venue Director, the Referee Observer, and the fourth official, where and as applicable, shall assist the referee in determining whether the racist behaviour has ceased following step 2.

However, any decision by the referee to abandon a match in such circumstances shall only be taken after all other possible measures have been implemented and the impact of abandoning the match on the security of the players and the public has been assessed by means of a full and extensive consultation with the Venue Director, the Referee Observer, and the officer in charge of police at the venue. In principle, abandoning the match is subject to the agreement of all parties involved.

- (iii) Where any of the steps provided in sub-article (ii) above are taken, the referee, the Referee Observer, and the Venue Director shall report the matter which shall then be referred to the Control, Disciplinary and Ethics Committee.

Where the match is suspended by the referee because of racist and/or discriminatory conduct, the match may be declared forfeit.
